Want to start selling in the US?

# RJM TAX EXEMPTION

Services & Solutions Provider

## Who are we?

We are an EXCELLENT-rated, UK based consultation and solutions provider company that specialises in helping both Non-US and US clients become compliant to start selling online in the US.

In 2022 the total e-commerce sales in the US topped \$875 Billion and it is only predicted to grow more and more! One of the biggest hurdles people face with selling online is sales

tax. Sales tax in the US is one of the most complicated taxes and can become a headache for businesses selling online very quickly!

We are not CPAs or Lawyers, but our wealth of experience over the last 4 years and our connections in the industry is invaluable. Don't believe us? Have a look at some of our reviews on TrustPilot.

## Where does our experience come from?

Initially, we had branched out to start our own e-Commerce business in the US and we were hit with the same hurdles as everyone else: The US tax code and all its complexities. We had multiple calls with lawyers, accountants, the state department of revenues and face-to-face bank meetings, who often provided contradictory advice and needed to gain knowledge of international individuals selling online in the US through marketplaces.

After significant time and research, we had individuals who, unaware of how to remain tax compliant while selling in the US, reached out to us in search of advice. RJM Tax Exemption began from here. Initially, we were working with around 10 clients a month and 3 staff members - today we work with over 3,000 different businesses worldwide and a team of 20 staff members.
